

TRUWOOD ADOBE™ PANEL SIDING

FEATURES/BENEFITS

Natural stucco appearance: Provides the look of stucco without the hassle, high cost or lengthy cure time.

Quality engineered surface and core: TruWood Siding is designed specifically to eliminate splitting, cracking and checking. It is also free of knots, resulting in a more attractive finished project.

Pre-primed for improved weatherability: TruWood Siding is primed to provide a consistent surface ready to accept paint. TruWood's industry leading coating technology ensures uniformly primed boards for added weather protection while providing an excellent surface for exterior topcoats.

4' x 8' panels: Panels are sized for optimal versatility. The 1/2" thickness produces a solid panel.

Best protective packaging available: TruWood protects your investment with premium packaging that reduces damage and provides for easy handling.

Trained field representatives: TruWood reps provide technical support and jobsite application training.

30-year limited warranty: TruWood Siding offers the best warranty in the industry and it's fully transferable. See complete warranty for details.

Availability: Field inventories are available through a convenient local distribution network to ensure siding is delivered where and when you need it.

Trim: Use matching reversible TruWood Trim to finish around windows, doors and corners.

Green matters:

- Recycled content is 3rd party certified by Scientific Certification Systems (SCS)
- No UF resin
- Maximum fiber utilization and recovery
- TruWood Sidings available with FSC certification

TruWood® SIDING

DESCRIPTION

TruWood Adobe™ 1/2" Panel Siding offers the attractive visual appeal of stucco and the easy application of panel siding. It is engineered to be more resistant to damage than today's stucco and you don't have to worry about added masonry cost or the inconvenience of a lengthy curing time. Paint goes on smoothly and uniformly. The result is a high quality appearance that enhances the architectural appeal of any home.

TruWood Siding has combined competitive price and high quality to set a new industry standard for value. Expert craftsmanship and proven performance make TruWood Siding an excellent choice for today's quality and value conscious builders.

USES

TruWood Siding is designed for use in residential single-family and multi-family housing and adds style to remodeling and light commercial projects. Whether you are a professional builder or a do-it-yourselfer, TruWood Siding delivers style and impact to all your outside building projects.
