

## TRUWOOD BEADED PORCH PANEL

### FEATURES/BENEFITS

**Durable:** TruWood Beaded Porch Panel is designed specifically to eliminate splitting, cracking and checking. It's free of knots, resulting in a more attractive finished project.

**Stylish:** Seize a design opportunity and specify TruWood Beaded Porch Panel. It's produced from residual wood fibers, and with our distinctive bead, our soffit is a practical way to add charming detail to your home.

**Preprimed for improved weatherability:** TruWood Beaded Porch Panel is primed to provide a consistent surface ready to accept paint. TruWood's industry leading coating technology ensures uniformly primed boards for added weather protection while providing an excellent surface for exterior topcoats.

**Green matters:**

- Recycled content is 3rd party certified by Scientific Certification Systems (SCS)
- No UF resin
- Maximum fiber utilization and recovery
- TruWood Sidings available with FSC certification

**Easy to install:** No special tools are needed for TruWood Beaded Porch Panel. Installation is quick and simple using standard tools. Our beaded porch panel can be used with our plowed fascia to simplify this soffit insertion. TruWood Beaded Porch Panel is the best choice whenever designs call for the look of solid wood. And it nicely complements our TruWood Trim. Panels are 4'x8' for quick and easy installation.

TruWood offers one of the widest choices in claddings you can find – a variety of patterns for any type of design, architecture, neighborhood or budget. Matching reversible TruWood Trim is also available. For a product you can depend on, specify TruWood Siding and Trim.

## TruWood® SIDING

### DESCRIPTION

Just sit back in your porch swing and watch the grass grow. When your home has good looks, builders call that curb appeal. When you have the peace of mind to match, we call that comfort appeal. When you use TruWood Beaded Porch Panel you know you're getting the durability and low maintenance you've come to expect with other TruWood products. It's not just a pretty face; it conforms to the standard every home owner should expect. Because first impressions always matter – year after year after year.

### USES

TruWood Beaded Porch Panel will give your home the look of wood and will add elegance to your home. It offers the charm of a hand-crafted, classic bead soffit, the performance of a superior engineered panel and can also be used as an interior paneling and wainscoting. What an excellent choice for high-profile locations like porches.
