

8" Sure Lock™

Sure Lock Six Cottage Lap®

SURE LOCK™ SIDING

TRUWOOD 8" SURE LOCK™ AND SURE LOCK SIX COTTAGE LAP® SIDING WITH CONCEALED NAILING SYSTEM

FEATURES/BENEFITS

Sure Lock profile: Locks siding in place every time, assuring straight, level installation, saving time and money. Provides a smooth, nail-free surface.

Quality engineered surface and core: TruWood Siding is designed specifically to eliminate splitting, cracking and checking. It is also free of knots, resulting in a more attractive finished project.

Pre-primed for improved weather-ability: TruWood Siding is primed to provide a consistent surface ready to accept paint. TruWood's industry leading coating technology ensures uniformly primed boards for added weather protection while providing an excellent surface for exterior topcoats.

16' lengths: Cut for optimal versatility, the 16' lengths result in less cutting and less waste. The 1/2" thickness produces a solid panel.

Hidden nail scribe line: Shows proper nail placement for quick and easy installation.

Large style selection: This siding is available in Old Mill® textured cedar surface and your choice of three widths, giving you many design options to build more appealing projects.

Best protective packaging available: TruWood protects your investment with premium packaging that reduces damage and provides for easy handling.

Trained field representatives: TruWood reps provide technical support and jobsite application training.

Complete line of accessories: Lap joint connectors and corners are available for all your project needs.

30-year limited warranty: TruWood Siding offers the best warranty in the industry and it's fully transferable. See complete warranty for details.

Availability: Field inventories are available through a convenient local distribution network to ensure siding is delivered where and when you need it.

Trim: Use matching reversible TruWood Trim to finish around windows, doors and corners.

Green matters:

- Recycled content is 3rd party certified by Scientific Certification Systems (SCS)
- No UF resin
- Maximum fiber utilization and recovery
- TruWood Sidings available with FSC certification

TruWood® SIDING

DESCRIPTION

TruWood Sure Lock™ 1/2" Lap Siding features a hidden nail design that allows flexible and easy application without surface nails. This unique design locks each piece of siding securely in place every time. TruWood Sure Lock Lap Siding looks like traditional siding, but it's more consistent. You won't see any knots, checks, cracks or surface variations. Paint goes on smoothly and uniformly. The result is a high quality, finished appearance that lasts. It's available in Old Mill® textured surface for the look of cedar without the defects or high cost.

This siding is also available in our very popular Sure Lock Six Cottage Lap® style for an attractive and cost-effective narrow lap look. Our hidden nail design feature further enhances the installation. And the faster the courses go up, the lower your installed costs. Lower costs and greater customer satisfaction – a winning combination every time.

Choose TruWood Siding for long-term performance, durability and lasting curb appeal.

USES

TruWood Siding is designed for use in residential single-family and multi-family housing and adds style to remodeling and light commercial projects. Whether you are a professional builder or a do-it-yourselfer, TruWood Siding delivers style and impact to all your outside building projects.
